ABOUT ME

- Aspiring Fresher Data Analyst currently Pursuing Bachelor's degree in B-tech in Computer science
- Passion for transforming raw data into meaningful insights.
- Proficient in data analysis tools such as Python, SQL, and Excel, with a strong foundation in statistical methods.
- Excited to embark on a career journey in data analysis.

PROJECT

Diwali Sales Analysis

Project Learnings

- Performed data cleaning and manipulation
- Performed exploratory data analysis (EDA) using pandas, matplotlib and seaborn libraries
- Improved customer experience by identifying potential customers across different states, occupation, gender and age groups
- Improved sales by identifying most selling product categories and products, which can help to plan inventory and hence meet the demands

Ecommerce Sales Dashboard

Project Learnings

- Created interactive dashboard to track and analyze online sales data
- Used complex parameters to drill down in worksheet and customization using filters and slicers
- Created connections, join new tables, calculations to manipulate data and enable user driven parameters for visualizations.
- Used different types of customized visualization (bar chart, pie chart, donut chart, clustered bar chart, scatter chart, line chart, area chart, map, slicers, etc.
